### Setting Up your Account:

1. Sign up for an account, and make it LIVE at <https://dashboard.stripe.com/register>
2. Under the "your account" tab you will need to enter in your bank account information so that when you are ready to transfer funds, you can do so. You don't really need to enter any additional information in the tabs.
3. Take the account LIVE (top left). You may get a message asking if you are ready to activate the account - follow the steps provided to activate.
4. Once the account is LIVE, click "Your Account" and then "Account Settings".
5. Under the API tab, we need 2 things: your LIVE Published Key and LIVE Secret Key. They look like this:  
Secret Key: sk\_live\_mzBxRay4FL0gKCKhT4NlLeCp  
Published Key: pk\_live\_uNTdXNe0HlBMopFhdnkIOZD

Once you have sent in the two codes in the Support Tracker, we will install the security keys. Your site will then be ready for a LIVE transaction.
