HARVARD

Processing Event Transactions

As a site administrator, you sometimes may need to process payment transactions on a user's behalf. For example, one of your organization's members may wish to purchase tickets to an event, but may have temporarily lost access to his or her account. The sections that follow show you how to use Harvard's web management system to purchase items for your site's users in these types of scenarios.

1. Click the admin menu button 🌒 and select "Manage Store."

	😸 🎓 Welcome, HAA! 🗸

	Manage Articles
	Manage Files & Images
Total Contraction	Manage Newsletter
	Manage Events
	Manage Forums
Welcome	Manage Store
Lorem ipsum dolor sit amet, consectetur adipis magna aliqua. Ut enim ad minim veniam, quis n	Manage Memberships ui uij

The **order management screen** appears. Locate the **CCB code** at the upper left of your screen, and copy it into a separate document—you'll need this code to complete the steps that follow.

CCB Code: 12b3456789101112 Website Time: Aug 04, 2016 23:09:38	View Orders	Manage Items	Configure Shipping	Configure Sales Tax
	3 CCB Code	e: 12b3456789101112	Website Time: Aug 0	14, 2016 23:09:38

2. Next, select "Manage Users" from the admin menu:

	🏀 🏕 Welcome, HAA! 🗸
	Submit Article
	Manage Articles
	Manage Files & Images
and all the second s	Manage Newsletter
	Manage Events
	Manage Forums
Welcome	Manage Store
Lorem ipsum dolor sit amet, consectetur adipis	Manage Memberships
consequat. Duis aute irure dolor in reprehende	Report Center
Excepteur sint occaecat cupidatat non proident, s	Manage Users

The **profile management** screen appears—use the search fields within this screen to locate the user for whom you would like to process a transaction:

Users	Groups	Classifications	Unsubscrib	e R	Redundan	cies Sniff	er	Auxiliary Sync
Users Filte	r: Key Fields	filter -						
First Name	contains:	La	st Name contain	s:		Em	ail cont	ains:
Home State	e contains:	Но	ome Zip contains	:		UIE	D (for ra	ange use "-"):
Work State	e contains:	W	Work Zip contains: Company Name		Name contains:			
School 1 Na	ame contains:	Sc	hool 1 Degree co	ontains:		Sch	ool 1 G	rad Year within
Main Code	: Show All -	Re	gistered betwee	en:	уууу -	mm 👻	dd 🔻	and yyyy 🔻
		La	st Update Date b	between	уууу 👻	mm 🝷	dd 🔻	and yyyy 🔻
Criteria 1 U	Jnclassified	-	Criteria 6	Unclass	sified 🔻			Criteria 1
Criteria 2 U	Unclassified	-	Criteria 7	Unclass	sified 🔻			Criteria 1
Criteria 3 U	Unclassified	-	Criteria 8	Unclass	sified 🝷			Criteria 13
Criteria 4	Unclassified ·	-	Criteria 9	Unclass	sified 🔻			Criteria 14

3. To perform the search, click the "**Apply Filter**" button next to the "**Output to Browser**" drop-down menu below the search fields:

Results for your search appear below the "Apply Filter" button within your web browser:

			Output	t to Browser (default) 👻 Ap	ply Filter ->
IDEmail	Screen Name	First	Last Level S	status Renewed Expires	Action
1 ops@omnimagnet.com	Magnet Team	Magnet	Team	No Membership	Select Action
17 alumni_magnet@harvard.edu		HAA	Admin	No Membership	Select Action
61 ops2@omnimagnet.com	Magnet Team	Magnet	Team	No Membership	Select Action

4. To process a transaction for a specific user, select "**Masquerade as User**" under the "**Action**" dropdown menu to the right of the user ID:

A confirmation screen appears; click the "**Masquerade**" button at the bottom (see next page for a visual representation).

5. Click the "Masquerade" button at the bottom of the confirmation screen:

A second confirmation screen appears—select the "Click here to begin the new session" link.

A new user masquerade session is initiated under the user ID you selected (i.e., you are now logged into the system as the selected user).

6. Verify that you are logged in as the selected user by ensuring that the "Masquerade as User (MAU)" menu appears at the upper left of your screen (you'll also need to use this feature to close your session when done).

Note: If you do not see the icon for the MAU menu, post a question to Support Tracker or contact alumni_magnet@harvard.edu for assistance—the AlumniMagnet team will respond as soon as possible.

7. Once you've confirmed that your session is active, you can then purchase items on the user's behalf. For example, if the user wishes to buy event tickets, you can proceed to the events page:

8. Navigate to the item the user would like to purchase—in this case, we'll select an event ticket:

Click the "Add to Cart" button to purchase the item.

9. From the shopping cart screen, click the "Checkout" button to pay for the item:

Your Shopping Car	rt (1 item)		
Qty	Item	Price	Total
1 [remove]	My Example Ticket Item [Get more tickets for this event.]	\$50.00	\$50.00
Continue Get more tick	e Shopping kets for another event.	Sub-total:	\$50.00
	Recalculate Cart		

The **checkout screen** appears—enter the user's billing information into the fields provided:

IMPORTANT: Th	e checkout process is secure. Your o NO CREDIT CARD N	credit card number is encrypted, processed, and then immediately discarded. UMBERS ARE STORED ON THIS SERVER.
Checkout		
Billing Information: Email:		
First Name: Last Name:		
Company: Billing Address 1:		

10. In the **credit card field**, enter the **CCB code** obtained in step 1. Ensure that there are no spaces before or after the number:

11. Click anywhere **outside** of the credit card number field. A **drop-down menu** containing a list of payment types appears to the right of the code you just entered—select the appropriate payment method from the options provided:

ay by credit card			
Cards Accepted:	<u>VISA</u> 😂 🔤		
Card Number:	12b3456789101112	Check -]
	Digits only. No spaces or dashes.	Check]
Expiration Date:	12-Dec - 2022 -	Cash	
Card Codo:		Visa	
Card Code.		Mastercard	
	Visa, MC - last 3 digits on the back. AMI	AMEX	of the card.
		PayPal	
		Money Order	
		Other	

Note: If you do not know which payment type to select, contact the user for whom you are making the purchase to obtain this information before proceeding.

12. After completing the form, click the "**Confirm**" button at the bottom of the screen. The user will receive an email confirming the transaction.

13. Once the user's purchase is finalized, you'll need to end your MAU session. Roll over the MAU menu icon shown in step 7 to expand it, and select "**click to reverse**" to exit the account.

The system logs you out, and your previous session as a system administrator resumes.

Note: If you need to process transactions for more than one user, be sure to click the "**Home**" button after ending each MAU session. This resets your browser and prevents the occurrence of session errors, as well as accidental overwriting of user profile information.

14. To verify that your transaction was processed, return to your site's store as shown in step 1. Use the search fields in the **order management** screen to locate the purchase made in the preceding sections:

First Name:	User first n	ame	Order Total:	
Last Name:	They less a		SKU #:	
	User last lia	mie		
Email:			Customer UID:	
Order Date Between:	уууу 🗕 ш	ntn 👻 dd 👻 and y	yyy ▼ mm ▼ dd ▼	

To perform the search, click the "Apply Filter" button at the bottom of the screen.

15. Once you've located the user's order within your search results, ensure that the "**payment type**" column contains an entry beginning with "**CCB**"—this code indicates that an administrator processed the order on the user's behalf:

ORDER DATE	♦ STATUS	PMNT TYPE	TOTAL	
05/06/2013 16:59	paid	CCB - check	- 150.00	Ф
05/06/2013 16:30	paid	CCB - check	- 75.00	ð

The above example shows a CCB transaction with a payment processing method of "check." If the user selected a different payment method (credit card, money order, etc.), this would appear in the column instead.

16. **Important:** make sure to delete any documents created in step 1 that contain copies of the CCB code used in the preceding sections. **The CCB code is confidential and should not be saved or distributed.**

Anyone with access to the CCB code has the capability to process transactions without providing actual payment for the items received. Also, since this code periodically changes, there's no need to save extra copies of it.

Questions on this guide? Please post any questions to Support Tracker and the AlumniMagnet team will respond as soon as possible.
